

ADC-USB31/CAE

USB 3.1 C(M) to A(F) Adapter Cable

Kramer's ADC-USB31/CAE is a USB 3.1 Gen-1 to a USB-A female adapter cable that offers a new level of connectivity. With just one cable, you can transfer data at incredible speeds, charge other devices, and even power mobile devices. Quickly becoming the new universal standard, USB 3.1 is supported by Windows, Google, and Mac operating systems as well as many device manufacturers.

The symmetrical, low profile USB Type-C connector can be plugged in any orientation, eliminating the frustration of getting the port insertion just right

FEATURES
